### **NOTICE OF PROPOSED NON-HISTORIC USE PRODUCTION PERMITS AND PUBLIC HEARING**

The Southern Trinity Groundwater Conservation District (“District”) proposes action on applications for Non-Historic Use Production Permits (“NHUPPs”), which would authorize the permittees to withdraw groundwater from the Brazos River Alluvium or Trinity Aquifers, in the Hensell & Hosston Zones, according to the terms and conditions set forth in the proposed permits. A copy of the general manager’s proposed action, the proposed NHUPPs and technical summaries are available for public inspection at the District’s offices at 420 North 6<sup>th</sup> Street, Waco, Texas Monday through Friday, 8 a.m.-12 p.m.

The District will conduct a public hearing pursuant to its authority under Chapter 8821 of the Texas Special District Local Laws Code, Chapter 36 of the Texas Water Code and the District’s rules, to consider issuance of the proposed NHUPPs and to provide interested members of the public the opportunity to appear and provide oral or written comments to the District regarding the proposed permits at the following date, time and place:

Date: Thursday, May 24, 2018  
Time: 9:00 a.m.  
Location: Texas A&M AgriLife Extension Office  
420 N. 6<sup>th</sup> Street  
Waco, Texas

An NHUPP is proposed to be granted to the following entities as follows:

Lehigh Cement Company. filed an application numbered NHUPP-2018-022 with the District on January 18, 2018 requesting a maximum annual amount of groundwater withdrawal from the Trinity Aquifer in the Hosston Zone of 230 acre-feet (75,000,000 Gallons) for Industrial use pumped from well located at the following latitude/longitude:

Well #1 31.482395 -97.242706

The NHUPP proposed by the District for Lehigh Cement Company has a maximum annual amount of groundwater withdrawal from the Trinity Aquifer of 230 acre-feet (75,000,000 Gallons).

The Reinforced Earth Company filed an application numbered NHUPP-2018-023 with the District on January 9, 2018 requesting a maximum annual amount of groundwater withdrawal from the Brazos River Alluvium Aquifer of 11 acre-feet (3,500,000 Gallons) for Industrial use pumped from well located at the following latitude/longitude:

Well #1A 31.666111 -97.21

The NHUPP proposed by the District for The Reinforced Earth Company has a maximum annual amount of groundwater withdrawal from the Trinity Aquifer of 11 acre-feet (3,500,000 Gallons).

The Reinforced Earth Company filed an application numbered NHUPP-2018-024 with the District on January 9, 2018 requesting a maximum annual amount of groundwater withdrawal from the Trinity Aquifer in the Hosston Zone 11 acre-feet (3,500,000 Gallons) for Industrial use pumped from wells located at the following latitude/longitude:

Well #2T 31.666389 -97.209167

The NHUPP proposed by the District for The Reinforced Earth Company has a maximum annual amount of groundwater withdrawal from the Trinity Aquifer of 11 acre-feet (3,500,000 Gallons).

SRC Water Supply, Inc. filed an application numbered NHUPP-2018-025 with the District on March 5, 2018 requesting a maximum annual amount of groundwater withdrawal from the Trinity Aquifer in the Hensell Zone of 25 acre-feet (8,146,275 Gallons) for Municipal use pumped from wells located at the following latitude/longitude:

Well #1 31.621799 -97.408841

The NHUPP proposed by the District for SRC Water Supply, Inc., Inc. has a maximum annual amount of groundwater withdrawal from the Trinity Aquifer of 25 acre-feet (8,146,275Gallons).

Valley Mills ISD filed an application numbered NHUPP-2018-026 with the District on March 2, 2018 requesting a maximum annual amount of groundwater withdrawal from the Trinity Aquifer in the Hensell Zone of 40 acre-feet (13,000,000 Gallons) for Other use pumped from wells located at the following latitude/longitude.

Well #1 31.644111 -97.45524

The NHUPP proposed by the District for the Valley Mills ISD has a maximum annual amount of groundwater withdrawal from the Trinity Aquifer of 40 acre-feet (13,000,000Gallons).

Heritage Ministries filed an application numbered NHUPP-2018-027 with the District on January 9, 2018 requesting a maximum annual amount of groundwater withdrawal from the Trinity Aquifer in the Hosston Zone of 30 acre-feet (9,775,530 Gallons) for Other use pumped from wells located at the following latitude/longitude.

Well #1 31.668319 -97.160458

The NHUPP proposed by the District for the Valley Mills ISD has a maximum annual amount of groundwater withdrawal from the Trinity Aquifer of 30 acre-feet (9,775,530 Gallons).

City of Crawford filed an application numbered NHUPP-2017-028 with the District on January 15, 2018 requesting a maximum annual amount of groundwater withdrawal from the Trinity Aquifer in the Hensell Zone of 116 acre-feet (37,850,900 Gallons) for Municipal use pumped from wells located at the following latitude/longitude.

Well #1 31.533056 -97.451389

Well #2 31.526389 -97.461944

The NHUPP proposed by the District for the City of Crawford has a maximum annual amount of groundwater withdrawal from the Trinity Aquifer of 116 acre-feet (37,850,900 Gallons).

NHUPP applicant or affected persons may file a written request for a contested case hearing on the proposed NHUPPs with the District by no later than May 14, 2018 at 9:00 a.m. If no timely

requests for contested case hearing are filed, the applications will be presented to the District on the date of the hearing for final action.

**ISSUED THIS 25th DAY OF APRIL, 2018**

Scooter Radcliffe, General Manager  
Southern Trinity Groundwater Conservation District
